

# Upgrade Your Bench for Less

20% off Keysight Digital Multimeters and Data Acquisition Units Through Oct 31, 2023

Are you seeking to elevate your laboratory setup and enhance your research capabilities?

Your search ends here with our exclusive offer: a 20% discount on digital multimeters and cutting-edge data acquisition tools for a limited time only! Don't miss this opportunity to upgrade your lab bench and propel your work to new heights.

## Eligible product models:

### Digital Multimeters

- 34460A
- 34461A
- 34465A
- 34470A

### Data Acquisition Models

- DAQ970A
- DAQ973A
- DAQM900A
- DAQM901A
- DAQM902A
- DAQM903A
- DAQM904A
- DAQM905A
- DAQM907A
- DAQM908A
- DAQM909A

## Make Trusted Measurements

Keysight digital multimeters and data acquisition units are designed to provide reliable and accurate measurements every time. They come with built-in technology that eliminates extraneous noise factors from the true measurement, making a big difference in the accuracy of your measurements.

## Measure with Unquestioned Confidence

Keysight digital multimeters enable you to get quick insights, measure low-power devices, and maintain calibrated measurements with Keysight's measurement technology. It offers a full range of measurement capabilities with higher levels of accuracy, linearity, speed, and resolution.

## Integrate Confidently. Switch Confidently.

Reliable and repeatable switching is critical for your measurement accuracy, whether you use switching to route signals for design verification applications or complex automated functional test systems. Keysight's switch measure mainframe and modules help ensure confidence in your measurement results.
